SUNDAY LAW May Interfere With Proposed Band Concerts in Hartford.

That the recent agitation over the Sunday law and the strict enforcement of it, so far as moving pictures theaters were concerned, is liable to put an end to the Sunday band concerts given by the city in the public parks was the fear expressed by members of the amusement committee of the common council, meeting in the mayor's office, Friday evening, says the Courant. The matter was brought up by Coun-

The matter was brought up by Councilman Bernard Burns, who pointed out that trouble was liable to be made in regard to the concerts. Alderman William T. Smith said that he understood it was against the law to give concerts on Sunday, and that anyone attending them was liable to a fine of \$1. This was one of the principal reasons for giving up the big joint concert of Colt's band and the German singing societies in Colt park which was planned to be given on a Sunday last year. The Sunday afternoon concerts given by the Great Eastern band on Riverside park last year were one of the features of the programme. The concerts were largely attended and by a class of people that will find it hard to go to a concert on any other day in the week. For this reason the amusement committee felt that it ought, if possible, to continue the concerts there on Sunday, either in the afternoon or evening, the latter being possible now that the park is lighted nights, and it decided to ask the advice of the corporation counsel about the matter.

There is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies and by constantly failing to cure with local treatment pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Curemanufactured by F. J.
